Learn About Your Personal Risks For Breast Cancer And What Those Are...

**1 in 8 women** will be diagnosed with breast cancer in their lifetime

*Advances in imaging technology and Artificial Intelligence (AI) are allowing doctors to diagnose breast cancer earlier than ever, when it is most treatable and easier to cure.*

**DATE:** July 13, 2023

**TIME:** 5:30 PM

### OUR PANEL OF BREAST CANCER EXPERTS

#### FEATURED SPEAKERS

**Dr. Jason McKellop**  
Medical Director of Breast Imaging  
Breastlink in Tarzana

#### TALKING POINTS

- Overview of the role that risk factors (family history, genetic mutation) have on the likelihood of being diagnosed with breast cancer
- Specific genetic mutations and the overall lifetime risk of developing breast cancer they cause

**Dr. Shawndeeep Tung**  
Breast Surgical Oncologist  
Memorial Care Cancer Institute at  
Breastlink in Orange County

- Ways to calculate personal risk factors for breast cancer
- When to start and when to stop worrying about breast cancer
- When to consider surgery according to age range

### Special Guests

**Dr. Lauren DeStefano**  
Breast Surgical Oncologist  
Cedars-Sinai

**Dr. Amado del Rosario**  
Medical Director of Breast Imaging  
Breastlink, Arizona Diagnostic Radiology
