

Cardiac Conditions: HCC Documentation and Coding Staff

We invite you to participate in Alignment Health's monthly webinar series designed to foster a deeper understanding of HCC documentation & coding best practices. These will be 45-minute sessions, followed by 15 minutes of interactive Q&A discussion.

Doctor Bambha is an internist, certified professional coder, and risk adjustment coding expert with extensive clinical experience as both a hospitalist and primary care physician.

Her firsthand experience caring for Medicare Advantage patients ignited her passion for value-based care, leading her to mentor colleagues and develop educational materials for clinicians and coders. Doctor Bambha's unique blend of clinical and coding expertise makes her an ideal trainer in accurate HCC documentation and RAF optimization.

During her spare time, she likes to paint, cook and spend time with friends and family.

Tuesday, April 29th
7:30am – 8:30am PT
