

Cortica brings pediatric medical care and autism therapies together in one coordinated care model for children from birth to age 17.

Comprehensive Autism Care for Your Family

We are one team of doctors, nurse practitioners, therapists, and counselors, focused on your child as a whole person, with support built around their needs, strengths, and goals.

Autism Diagnostic Assessments

We offer the Autism Diagnostic Interview-Revised (ADI-R), Autism Diagnostic Observation Schedule (ADOS), and more.

ABA Therapy

Our naturalistic approach reshapes neural networks and improves daily living skills while fostering positive behaviors.

Medical Care

Diagnosing and treating seizures, sleep disorders, gastrointestinal symptoms, anxiety, ADHD, emotional dysregulation, and more.

Jumpstart Early Intervention

A center-based program blending ABA, speech, and occupational therapies for toddlers and young children with autism.

Speech & Occupational Therapies

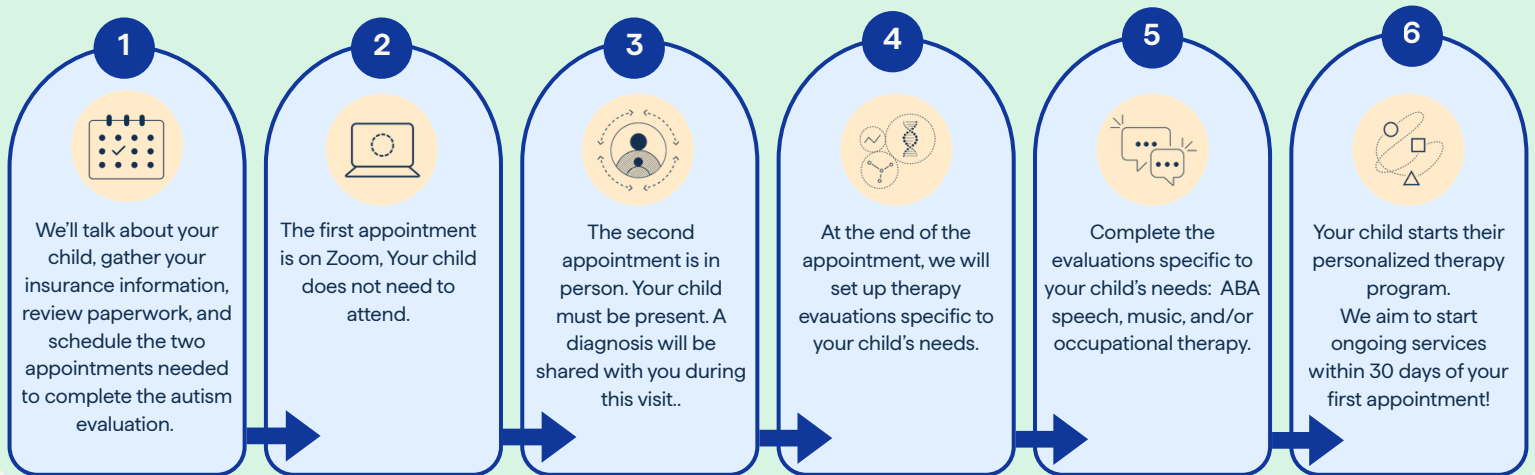

Developmental therapies support sensory, motor and communication goals

Mental Health Counseling

Your child and any member of your family can receive counseling and therapy services from our array of licensed counselors.

Your Cortica Care Journey

Navigating a new diagnosis through treatment for children under 6 years old with autism
