

New Participation Requirement for ACN Specialists

What is the Requirement?

Beginning July 1, physicians are required to treat patients at in-network facilities at **least 25 percent of the time** to remain in good standing with ACN. ACN will regularly review physician alignment and network adequacy on a quarterly basis and adjust the specialist network as needed.

Cost Savings Analysis

Benefits of In-Network Care Coordination

» PATIENT SATISFACTION

Reduces out-of-pocket costs for patients, regardless of the patient's health plan/ insurance. Allows you to coordinate patient care with providers across the continuum who share similar values and goals toward high-quality, lower cost of care.

» HEALTH OUTCOMES

Collaborating with ACN Specialist Providers to manage patient conditions helps ensure better outcomes for your patients.

» TANGIBLE REWARDS

Shared cost savings increase incentive opportunities for your practice.

Average Cost Savings for Services Performed by In-Network Providers
