

Urgent Care

Urgent Care can offer a less expensive option when you or your family members become sick or injured, but the situation is not life threatening. Consider a network urgent care for:

- sprains
- flu
- outpatient x-ray and lab services
- strains
- rash or other skin irritations
- non-facial lacerations
- fevers
- mild asthma
- general non-life threatening conditions for both children and adults
- colds
- broken bones

Arizona Care Network (ACN) is your high-performing network – 5,000+ clinicians in more than 1,250 locations valley-wide, committed to these high standards. And because high quality care is cost efficient care, Intel members win.

See reverse for ACN urgent care locations valley-wide.
