

ACN Forms New VBA Partnership with UnitedHealthcare's Community & State Program

The Bottom Line

Great news: As part of Arizona Care Network's commitment to support your practice, ACN is excited to add new incentive opportunities and potentially increase your member attribution in 2024 through a new value-based arrangement (VBA) with UnitedHealthcare (UHC) for their Community & State Medicaid members.

Background

Since ACN was founded in 2013, medical groups received incentives from ACN for improving quality and coordinating care for their Mercy Care patients. This new partnership with UHC's [Community & State](#) program, which began earlier this summer, creates an opportunity for your practice to include your Community & State patients in our Provider Rewards Program (PRP) for the 2024 performance year.

Next Steps

Here are a couple important items to consider in the coming weeks:

- In addition to your group's participation in ACN's VBA with Mercy Care, your practice may also participate in ACN's VBA with UHC for its Community & State members beginning in 2024. Participating in both VBAs will increase your practice's available incentive opportunities within ACN's [Provider Rewards Program](#) (PRP).
- We understand your practice may be in the process of deciding which Network to align with for your Community & State patients for the 2024 performance year. We ask that you consider participating in ACN's value-based arrangement with UHC before making your decision. Please contact your dedicated Clinical Performance Consultant or email practicetransformation@azcarenetwork.org to learn more about this opportunity and ask any questions.

Thank you for participating with ACN!
