How it works

We create a local network – limited to doctors, specialists and hospitals right where your employees live. Then we customize a plan design for you and your needs. A suite of wellness services and programs help employees get on the right path to health. And, clear, ready-to-use communications help employees get more from their plan.

Network ins and outs

LocalPlus is a cost-efficient plan that's designed for today's busy, mobile families.

- › Employees can access the LocalPlus Network in any area in the country where one exists.
- › In areas where the LocalPlus Network is not available, they can use doctors in our national Away From Home feature at the in-network cost.
- › If employees choose to go outside the LocalPlus Network when one is available (or outside the Away From Home feature when LocalPlus isn't available), they will likely pay more (with LocalPlus IN, they would pay the full cost of their care).
