# Care Coordination Services for Your Family's Health

Arizona Care Network's Care Coordination team offers a full range of healthcare services and resources for eligible members, customized to your personal needs. Choosing Intel's Connected Care AZ health plan in 2024 offers this no-cost support from Registered Nurses, Navigators, and Behavioral Health Coaches for you and your family. ACN's Care Coordination team works in partnership with your provider to supplement an individual care plan, including chronic and complex conditions. We can help schedule appointments, support managing medications, and provide additional care resources and tips.
